SealMagicians Sealing Session With Leading EPC, Noida, UP

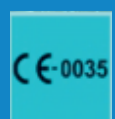

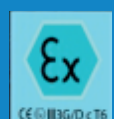

On 4th June 2025, a comprehensive training session was conducted at a leading EPC's office in Noida. The EPC provides a full spectrum of engineering services, encompassing feasibility studies, project financing, engineering, procurement, construction, transportation and installation, commissioning, operation and maintenance. They are currently executing orders globally in the fields of O&G, Petrochemicals, Chemicals etc. The session was organized by Sealmatic and focused on the company's global presence, its enlistments and credentials both in India and overseas, and in-depth knowledge sharing on mechanical seals.

Key topics included the fundamentals of mechanical seals and their components, seal selection methods, commonly used API plans, API 682-qualified seals and sealing systems, and Sealmatic's robust slurry seal designs. The session concluded with an engaging Q & A segment. The session was opened by Mr. Sumit Chanda with the introductory presentation. Mr. Thirumalai Chandran highlighted /Sealmatic's global footprint, while Mr. Surajjit Ray led the technical segment on API seals and Seal plans. The participants appreciated Sealmatic's strong presentation skills, subject matter expertise and extensive industry experience.
